

# Coronavirus

**Sometimes I will get sick.**

**I may get a headache. Or  
a bad stomach.**

**There is a virus called  
Coronavirus or COVID-19.**

**The coronavirus will make people feel unwell.**

**People who have coronavirus may feel tired, have a fever and a cough.**

**They may also have a sore throat and be short of breath.**

**Most people who get coronavirus need to rest at home to get better.**

**Some people may feel worse than others. They may need to go to the doctors or hospital.**

**There is a test to check if I have coronavirus.**

**If people have  
coronavirus, they will stay  
away from other people.**

**To stop spreading germs,  
we can make sure we  
have good hygiene.**

**I can wash my hands with soap and water, and count to 20 in my head.**

**I should try not to touch my face, or put my hands in my mouth.**

**Coronavirus can spread through droplets when someone sneezes or coughs.**

**I should sneeze and cough into a tissue and throw it away.**

**To stop spreading germs,  
some places may close and  
events may be cancelled.**

**Shops, schools and  
restaurants may close.**

**If my school is closed, I  
can do my school work at  
home.**

**My family will help me  
stay safe at home.**

**The staff at my school will  
make sure it is clean.**

**When it is safe for us to go  
back, the staff at my school  
will contact my family.**

**Coronavirus and my school closing may make me feel scared or upset.**

**It is ok to feel like this. My family and teachers will help me.**

# *Thank You!*

Thank you for downloading my free 'Coronavirus' social story. This social story is great to use with students who may be finding it difficult and scary right now with the virus.

I recommend cutting out and laminating each of the individual pages and then putting together as a small book.

If you have any questions, comments or requests please don't hesitate to contact me. Don't forget to head back and leave feedback to let us know how your students find this resource.

Thanks,  
Nikki
