

When I go to OT....

Corona Virus is still around and still pops up in unexpected places.

Just to be safe, some people wear masks when they leave their house.

Your therapist will be wearing a mask.

Mums and dads might be wearing a mask.

If I am over 12, I might wear a mask as well.

If I am younger than 12, I will not need to wear a mask.

It will be different, but we can still have fun, even with masks on.
